Backend: Node.js, Express.js, RESTful APIs, API Integration, C#, .NET Framework

Database: PostgreSQL, SQL, Database Schema Design

Tools: Git, GitHub, npm, VS Code, Chrome DevTools

Core Concepts: MERN Stack, Full-Stack Development, Component-Based Architecture, Single-Page Applications (SPA), State Management, Dynamic Routing, Agile Methodology, Web Performance Optimization, Semantic HTML, On-Page SEO

WORK EXPERIENCE

Full Stack Web Developer Freelance

Feb 2025 – Present

Self-Employed | Rawalpindi, Pakistan

- Developed 10+ full stack web applications using React.js, Node.js, JavaScript (ES6+), Tailwind CSS, PostgreSQL, and REST APIs.
- Built responsive, mobile-first UIs with cross-browser compatibility; managed RESTful API integration and PostgreSQL database schema design.
- Handled end-to-end full stack delivery — from UI/UX wireframing and component-based architecture to deployment — using Git/GitHub and Agile workflows.

Full Stack Web Developer Intern

Jul 2026 – Sep 2026

CodeCelix | Islamabad

- Collaborated with an 8-member Agile development team to build 5 full-stack web applications using React.js, Node.js, Express.js, PostgreSQL, REST APIs, Tailwind CSS, and JavaScript (ES6+).
- Developed responsive frontend interfaces, integrated RESTful APIs, participated in Git/GitHub-based collaboration, and contributed to scalable, production-oriented web application development.

Frontend Web Developer Intern

May 2026 – June 2026

Teyzix-Core | Islamabad

- Developed 3 responsive frontend web applications using React.js, JavaScript (ES6+), Tailwind CSS, HTML5, and CSS3 with a focus on reusable components and responsive UI.
- Implemented component-based architecture, responsive web design, and cross-browser compatibility while following Git/GitHub version control and SDLC best practices.

EDUCATION

BS Computer Science

Feb 2024 – Feb 2028

National University of Modern Languages (NUML) — Islamabad, Pakistan

- 6th Semester | CGPA: 3.75

FSC pre-Engineering

Sep 2021 – July 2023

Punjab College of Information and Technology (PCIT) — Rawalpindi, Pakistan

- Percentage 81%

PROJECTS

MICASA — Property Listing Platform [\(Live Demo\)](#)

Full Stack Web Application | React.js · Node.js · Express.js · Tailwind CSS · PostgreSQL · REST API

- Collaborated in a 3-member development team to build a property listing platform featuring Seller, Buyer, and Admin roles using React.js, Node.js, Express.js, Tailwind CSS, PostgreSQL, and REST APIs.
- Developed responsive frontend interfaces for property listings, inquiry management, property approval workflows, and advanced filtering based on property type, including Houses, Flats, Plots, Rental, and Sale listings.
- Built reusable React.js components with state management, dynamic routing, and modern UI/UX practices while integrating frontend features with backend APIs.

ECOMRADES — Service Selling Agency Website [\(Live Demo\)](#)

Frontend Web Application | HTML5 · CSS3 · JavaScript · Responsive Web Design · SEO

- Developed a professional service-selling agency website using HTML5, CSS3, and JavaScript with a fully responsive, cross-browser compatible UI optimized for all devices.
- Implemented on-page SEO best practices including semantic HTML structure, meta tags, keyword optimization, and page speed improvements to improve search engine ranking.

LearnX — E-Learning Platform [\(Internship Project\)](#)

Frontend Web Application | React.js · Tailwind CSS · JavaScript · REST API

- Collaborated with a 6-member development team to build a responsive e-learning platform where students can enroll in courses and track their learning progress.
- Developed the Contact, FAQ, and About pages using React.js and Tailwind CSS while ensuring responsive design, reusable components, and seamless user experience.

MediCare — Telemedicine Platform

Full Stack Web Application | React.js · Tailwind CSS · JavaScript · REST API · MongoDB

- Collaborated with a 6-member development team to build a telemedicine platform that enables patients to browse doctors, schedule appointments, and manage healthcare interactions.
- Developed Authentication, Home, Doctor Listing, Doctor Details, Appointment Booking, and Filter pages using React.js and Tailwind CSS, delivering responsive and user-friendly interfaces.

STREAMFLIX — Netflix-Inspired Streaming Platform [\(Live Demo\)](#)

Frontend Web Application | HTML5 · CSS3 · JavaScript (ES6+) · Responsive Web Design

- Built a responsive, mobile-first streaming platform UI with HTML5, CSS3, and JavaScript (ES6+) using CSS Grid, Flexbox, and cross-browser compatible layouts.
- Implemented dynamic content rendering, smooth UI interactions, and web performance optimization for fast load times across all devices.
